UNIT-II

Roll No		)	То	tal No. of Pages : 2			
		MCAT	200				
		MCA/I	5,00	5476			
		Visual Progra					
		Paper: MC	A-302				
Tir	ne : T	hree Hours]		Maximum Marks: 80			
No	te:-	Question No. 1 is compulsory.	Out of the re	maining, Candidate is			
		required to attempt any FOUR					
		ONE question from each unit.	*2				
1.	Wri	te brief notes on following:		*			
	(a)	Built in functions					
	(b)	Cool Bar					
	(c)	Tab strip		100			
	(d)	Rich text box control	** 1	0.0			
	(e)	Creating & using OLE					
	(f)	Using paint in VB					
	(g)	Default controls in tool box		20			
	(h)	String operations.		8×3			
		UNIT-	τ				
	What is the basic concept of Visual Program Design ? Compare it						
	with Non-Visual Concept.						
	Wha	at are various branching & loop	oing statem	ents in VB ? Explain			
		proper example.		14

5. Explain the following:  (a) Tree view & List view  (b) Status Bar & Progress Bar.  UNIT-III  6. How we work with sequential and random files in VB? Perform some operations on files and give examples.  14.  7. What are modules & class modules in VB? How we use them Explain with proper example.  14.  UNIT-IV  8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO.  14.  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.											
(b) Implementing drag and drop operations. 14  5. Explain the following:  (a) Tree view & List view  (b) Status Bar & Progress Bar. 14  **UNIT-III**  6. How we work with sequential and random files in VB? Perform some operations on files and give examples. 14  7. What are modules & class modules in VB? How we use them Explain with proper example. 14  **UNIT-IV**  8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO. 14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents. 14	4.	Write brief notes on the following									
(b) Implementing drag and drop operations. 14  5. Explain the following:  (a) Tree view & List view  (b) Status Bar & Progress Bar. 14  **UNIT-HI**  6. How we work with sequential and random files in VB? Perform some operations on files and give examples. 14  7. What are modules & class modules in VB? How we use them? Explain with proper example. 14  **UNIT-IV**  8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO. 14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents. 14		(a) MDI forms									
(a) Tree view & List view  (b) Status Bar & Progress Bar. 14  UNIT-III  6. How we work with sequential and random files in VB? Perform some operations on files and give examples. 14  7. What are modules & class modules in VB? How we use them Explain with proper example. 14  UNIT-IV  8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO. 14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents. 14	11,1.	(b) Implementing drag and drop operations.	14								
(a) Tree view & List view  (b) Status Bar & Progress Bar. 14  **UNIT-HI**  6. How we work with sequential and random files in VB ? Perform some operations on files and give examples. 14  7. What are modules & class modules in VB ? How we use them ? Explain with proper example. 14  **UNIT-IV**  8. What you understand by data controls and data bound controls ? Explain the usage of DAO, RDO, ADO. 14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents. 14	5.										
UNIT—III  6. How we work with sequential and random files in VB ? Perform some operations on files and give examples.  14  7. What are modules & class modules in VB ? How we use them ? Explain with proper example.  14  UNIT—IV  8. What you understand by data controls and data bound controls ? Explain the usage of DAO, RDO, ADO.  14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.		(a) Tree view & List view									
6. How we work with sequential and random files in VB? Perform some operations on files and give examples.  14  7. What are modules & class modules in VB? How we use them a Explain with proper example.  14  15  16  17  18. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO.  19. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.  19. Active X documents.	٠.	(b) Status Bar & Progress Bar.	14								
6. How we work with sequential and random files in VB? Perform some operations on files and give examples.  14  7. What are modules & class modules in VB? How we use them a Explain with proper example.  14  15  16  17  18. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO.  19. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.  19. Active X documents.		UNIT-III									
7. What are modules & class modules in VB? How we use them ?  Explain with proper example. 14  UNIT-IV  8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO. 14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents. 14			orm								
Explain with proper example.  UNIT-IV  8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO.  14.  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.		The state of the s	14								
8. What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO.  14. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.	7.	What are modules & class modules in VB ? How we use them ?									
<ol> <li>What you understand by data controls and data bound controls? Explain the usage of DAO, RDO, ADO.</li> <li>Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.</li> </ol>		Explain with proper example.	14								
the usage of DAO, RDO, ADO.  14  9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.  14		UNIT-IV									
9. Explain Active X clients, Active X DLLS, ActiveX controls and Active X documents.  14	8.	What you understand by data controls and data bound controls? Explain									
Active X documents.		the usage of DAO, RDO, ADO.	14								
e i de la companya de	9.	Explain Active X clients, Active X DLLS, ActiveX controls	and								
$\sim \lambda$ . The section of $\lambda$		Active X documents.	14
